

Breakthrough Profit Loophole

This simple system can help you collect consistent profits of 6.22%... 8.80%... 15.90%... and more

Fellow Investor,

Prepare to profit!

Thanks to my proprietary trading strategy, you can begin adding hundreds... or even thousands of dollars to your investing account each and every month.

In fact, this proven trading system — which combines a powerful, short-term (overnight!) earnings based strategy with my unique swing trading methodology in order to grab opportunities as soon as they hit my radar — could hold the key to ***dramatically improving your financial future.***

Instead of being tied to a single trading approach, I've developed strategies that will help you snatch profits wherever they appear, without being complicated or requiring more than 10 minutes of your time to execute each day...

How our trades are identified and how we execute them will depend on what my thorough daily market research and analysis tells me are our very best, cream-of-the-crop opportunities. Each and every trade is backed by my decades of in-the-trenches trading experience.

Just think... using my “Overnight Profit Loophole” approach, you could have cashed in profits to the tune of over \$600, with each winning trade.

And what's more... doing so with minimal risk — and with your investing “work” often completed by 9:40 a.m.

What is an “Overnight Profit Loophole” trade?

Let me explain...

Earlier this year, I began including this new trading approach as part of my *Trader's*

Meet Jon Markman

Jon Markman is a best-selling author of *The New Day Trader Advantage*, *Swing Trading* and *Online Investing*. He was

also a pioneer in developing stock rating systems and screening software... and he was the co-inventor on 2 Microsoft patents.

With his *Trader's Advantage* newsletter, Jon has applied his keen market sense and systematic approach to help traders like you rack up 1,164 winning trades since 2009.

Here's what *Trader's Advantage* subscribers have to say about Jon's performance:

“Your percentage of winning trades is simply awesome. Unlike other newsletters, you are not just touting

Advantage advisory service.

Since then, thousands of individual investors have been able to take advantage of overnight earnings winners like these:

- 7.97% on Expedia
- 8.80% on Norfolk Southern
- 8.93% on 8x8 Inc.
- 11.69% on Amplify Snack Brands
- 14.14% on Fox Factory Holdings
- 14.60% on Fitbit
- 15.85% on Manhattan Associates
- 15.95% on Plantronics

You'll notice that there are no triple-digit winners on the list above.

That's because this sampling of recent trades includes **only those Overnight Profit Loophole trades I delivered to my subscribers**. Steady, consistent and reliable profits that happen overnight.

And when I say overnight I mean just that — ***the gains appear by 9:40 a.m. the day after entering a trade.***

A modest, \$5,000 investment in each of these eight winning trades would have netted you an average overnight profit of \$612 per trade.

Now... is \$612 a lot of money to you? It probably doesn't sound like it.

But think of it this way: if you'd been with us when we began our overnight profit strategy, you'd be looking at ***\$15,450 in fast income collected over the past 6 months.***

And you could take that home simply by following a unique strategy that allows you to execute your trades in just a few minutes per day.

But the profits are only part of the story...

The overnight profit loophole I've been describing gives you access to consistent profit opportunities that offer strong upside with **limited exposure.**

And these trades couldn't be any easier to execute — it takes just a few moments of your time at the beginning and end of your day.

My name is Jon Markman — editor of *Trader's Advantage* — and I'd like to not only introduce you to this easy-to-use Overnight Profit Loophole strategy, but...

I'd also like to extend an invitation to you — [try Trader's Advantage for the next 60 days... Risk-Free.](#)

some lucky three-month streak. Your letters help teach money management and sticking to a disciplined trading system. Thank you for your great research and investment ideas!"

— Kory, WA

"Trader's Advantage helps me feel comfortable with the trend of the market. Nobody has a crystal ball, but with this service I feel like I won't get caught with my pants down on the wrong side of the market." — G. Williams, Warren, NJ

[**Claim your Risk-Free 60-Day Trial and Save 50% Now.**](#)

I'll tell you how you can claim your Risk-Free trial in just a minute. But first I need to tell you about...

Trader's Advantage: The Best Trades... and the Greatest Profits

I launched *Trader's Advantage* back in 2009 with one purpose in mind:

To help individual investors trade in and out of the very best stock and option swing trades... for the greatest possible profits.

The Overnight Profit Loophole strategy is just one type of trade recommendation you'll receive when you become a member of *Trader's Advantage*.

At its core, and with every strategy we employ, our service is designed to take advantage of huge price swings in stocks that are showing strong trends — either up or down — in the market.

We're able to ride those swings for consistent, reliable 5% to 50% gains — or more — in a matter of days or weeks by trading both stocks and options.

And every week, you'll receive 3-to-5 wealth-building trades that are packed with profit potential. Each one is primed to take advantage, no matter the market condition — bull, bear, or flat.

As you'll see the minute you activate your Risk-Free 60-day trial, my *Trader's Advantage* service is remarkably simple to use. All you need to do is follow my step-by-step instructions and you can begin banking straightforward gains like...

- iShares MSCI Japan puts: **100% in 6 days**
- Qualcomm calls: **82% in 1 day**
- iShares Russell 2000 calls: **45% in 1 day**
- Skyworks Solutions Inc. calls: **55% in 7 days**
- AT&T calls: **35% in 1 day**
- Cigna Corp. calls: **79% in 3 days**
- Google calls: **60% in 3 days**
- Manhattan Associates: **16% in 1 day**
- iShares Russell 2000 Index (ETF) calls: **25% the same day**
- Skechers U S A Inc.: **17% in 1 day**
- Ziopharm Oncology: **17% the same day**
- Atwood Oceanics: **15% in 7 days**
- Netflix calls: **86% in 6 days**
- United States Natural Gas ETF calls: **62% in 7 days**
- iShares Nasdaq Biotechnology puts: **40% in 3 days**
- Pfizer Inc. calls: **60% in 8 days**

- Fitbit: **15% in 1 day**

The fast-moving gains you'll see as a *Trader's Advantage* subscriber can help you grow your portfolio quickly — and with just a few minutes' worth of “work” each day.

Plus, with my **60-day, Risk-Free trial offer you have absolutely nothing to lose!**

Now let me tell you more about the Overnight Profit Loophole...

The 3 Simple Steps to Collecting Overnight Profits

Our chance to tap into these profitable overnight trades escalates during earnings season when companies report their quarterly earnings after the closing bell and before the next opening bell. We exploit the inevitable **earnings surprises — that can cause stocks to rise or fall dramatically.**

Being on top of, and ahead of, these potential surprises allows us to capture quick gains. And I'm always on the lookout for these earnings-related trades but that said...

The very best gains using this exciting strategy could still be ahead of us.

You see, the months leading up to the presidential election will most certainly bring added volatility to the U.S. stock market.

This uncertainty will show itself in many forms... and that volatility coupled with Q3 earnings will only enhance the swings — both positive and negative — that come as companies report their earnings to the public.

There is the potential for even greater profits as we approach this November's election.

So it's vitally important that you [sign up for your Risk-Free trial subscription today](#) in order to ensure you're on board to capitalize on each and every profit opportunity.

Whenever an overnight trade presents itself, we'll be ready to pounce... and the beauty of these overnight profits is how astoundingly simple they are to execute.

With just a few simple steps —you can exploit this unique profit loophole with very little effort.

Before you've had your second cup of coffee in the morning, your “work” is finished — and your overnight profits are banked for the day.

100% Risk Free!

Here's how it works:

Step 1: Buy — When I spot an opportunity to exploit an Overnight Profit Loophole, **I'll send you an e-mail alert by 3:45 p.m. eastern time.** This alert will explain — in simple terms — what you should buy before the market closes... and at what price.

Step 2: Sell — That same alert will instruct you **how and when to sell your position just after the opening bell the next morning.**

Step 3: Relax! — **And enjoy the rest of your day** — your overnight profits have already been racked up.

It couldn't be any simpler to execute — and what's more...

The Timing of These Trades Helps Keep Your Risk to a Minimum

By entering a position just before the market close — and then selling out of the position right after the next day's opening bell — you'll not only limit your downside risk...

You'll also limit your worry — and your effort!

That's because you'll be investing in unique trade opportunities that are hand-picked for their potential to "pop" at the market open — particularly around after-market earnings reports.

By selling out of the position just after the market opens, you'll eliminate any unnecessary risk... and you'll be capitalizing on carefully-selected **overnight profit opportunities** designed to help you collect consistent, positive gains time and time again.

After selling you can kick back and ENJOY your worry-free day, knowing that you've already banked your overnight profits — and you can then wait for the next hand-picked trading opportunity.

Overnight profits — with minimal risk. What more could you ask for?

Here's what just some of our Overnight Profit Loophole trades have looked like for my *Trader's Advantage* subscribers:

	• Thursday, April 28 — Enter position in Expedia between 3:45 — 3:59 p.m.
	✓ Friday, April 29 (9:40 a.m.) — Cashed out half of the Expedia position for 7.97% gains
	✓ Friday, April 29 (11:40 a.m.) — Cashed out the 2nd half of the Expedia position for 6.67% gains
	• Tuesday, May 3 — Enter position in Plantronics between

3:45 – 3:59 p.m.
✓ Wednesday, May 4 (9:40 a.m.) – Cashed out half of the Plantronics position for 15.95% gains
✓ Wednesday, May 4 (11:40 a.m.) – Cashed out the 2nd half of the Plantronics position for 13.12% gains
• Wednesday, May 4 – Enter position in Fitbit between 3:45 – 3:59 p.m.
✓ Thursday, May 5 (9:40 a.m.) – Cashed out half of the Fitbit position for 14.60% gains
✓ Thursday, May 5 (11:40 a.m.) – Cashed out the 2nd half of the Fitbit position for 14.48% gains
• Thursday, May 19 – Enter position in 8x8 Inc. between 3:45 – 3:59 p.m.
✓ Friday, May 20 (9:40 a.m.) – Cashed out half of the 8x8 Inc. position for 7.48% gains
✓ Friday, May 20 (11:40 a.m.) – Cashed out the 2nd half of the 8x8 Inc. position for 8.93% gains
• Tuesday, August 8 – Enter position in Microchip Technology between 3:45 – 3:59 p.m.
✓ Wednesday, August 9 (9:40 a.m.) – Cashed out of the Microchip Technology position for 8.33% gains

The first 3 trades listed were cashed out in just one week — with an average return of 12.13% per trade.

A modest \$5,000 investment in each of those 3 trades would have netted a total of \$3,639 in “overnight” profits.

Not bad for just a few minutes’ worth of “work” over one week, right?

And remember — because we were buying just before market close and selling at least half our position by 9:40 a.m. the next day... **the downside risk was severely limited in each of these trades.**

No question about it — these trades are an easy, low-risk way to collect consistent profits.

But what is the “loophole” that makes these fast-moving profits so reliable?

Join Now!

The Earnings “Secret” Behind These Trades

Now, I can’t reveal the entire proprietary strategy behind our overnight profit trades...

But I can tell you about the foundation of research on which these trades are based:

You see... companies' share prices are often impacted by earnings announcements in a very specific way.

It's a pattern I've watched unfold time and time again over the past several years as I've perfected this strategy.

If you know which companies stand to be impacted by earnings announcements — and I've developed a method for spotting the very best candidates — **the key is then to get in and out of these trades at precisely the right time.**

By executing these fast-moving trades with surgical precision — and only investing in those companies I've identified as having the strongest chance for a fast-moving earnings “pop” — it's possible to generate consistent, overnight profits.

The “loophole” that makes the trades possible is our ability to exploit this pattern of earnings-related pops — while minimizing the amount of time we're holding the investment during trading hours.

I'm always thinking of ways to help you profit. And I do a lot of research and analysis to uncover new approaches that will allow you to pocket consistent gains without a lot of complication.

In fact, I've spent the past several years refining and perfecting this overnight earnings strategy before rolling it out to my *Trader's Advantage* subscribers.

And what we have now is an easy-to-follow approach to trading that supplements our successful base swing trading strategy — specifically during earnings season.

I'm so convinced that you'll enjoy consistent returns with *Trader's Advantage* that I've insisted you be allowed to try it out **RISK-FREE — for a full 60 days**. If you don't find *Trader's Advantage* is a good fit for you or you find you're not profiting in all the ways I've described in the first 60 days, then you can call me at any time (even the 59th day) and ask for your money back — every dime... no questions asked.

Even after your first 60 days, should you decide you're not completely satisfied, you can always request a refund for the remainder of your membership.

That sounds fair doesn't it? Listen, I'm **not** happy unless you're happy.

So far in 2016, my Overnight Profit Loophole trades — at \$5,000 invested per trade — have brought in a combined \$15,450 in profits... at an average profit of \$250 per winning trade!

But the simple fact is that you can exploit all kinds of profit opportunities that I bring to you on a regular basis in *Trader's Advantage*. In fact, in 2016 we've averaged a \$300+ profit on every one of our winning trades with 124 winners to date.

You'll see all of this for yourself — without risking a dime.

[Click here to activate your Risk-Free, 60-day trial right now](#) — and lock in savings of 50%.

**Start My Risk-Free
Trial Today!**

Take a full two months to examine my *Trader's Advantage* service...

“Paper trade” my recommendations to start if you wish... and you’ll see that the returns are not only 100% REAL — they’re also easy to collect!

Trader's Advantage allows you to spend less time worrying about your trades — all while helping you grow your portfolio and minimize your risk.

Remember, each week I’ll deliver 3-to-5 trades which have met my rigorous selection criteria.

And all you’ll need to do to move on these trades is simply read my easy-to-follow trading instructions... place the trades... and then add up your profits. Now not every trade I recommend will turn out in our favor; no one can win every time, but I’m confident that you’ll enjoy the kind of profits you’ve been reading about with consistency.

After all, since launching *Trader's Advantage* in 2009, we’ve closed 1.164 winning trades (including 124 and counting so far this year!).

And remember...

Access to All of My Overnight Profit Loophole Trades... at the *Perfect Time*

With just a few minutes of your time devoted to each trade, you’ll soon be able to add wealth building to your daily “to-do” list.

No question about it — we’ve enjoyed some great, fast-moving returns since I first made these trades available to *Trader's Advantage* subscribers.

And now I’ve told you about my iron-clad, 60-day money back guarantee... as I’m happy to assume all of the risk for you.

But I haven’t told you about the other enticement I’ve arranged for you:

Save 50% When You Sign Up Today

Access to my *Trader's Advantage* service normally costs \$1,995 per year.

That’s a very modest subscription price when you consider the kind of profits you can bank over the course of one calendar year with my service.

In 2015, for example, we banked 109 winning trades... and that was on the heels of 150 winners in 2014... and 148 winners in 2013!

Not to mention the fact that we've already racked up 124 winning trades so far this year—and counting!

Join Now!

But here's the thing.

I've arranged — for a limited time — for you to receive access to my *Trader's Advantage* service for one full year at the discounted price of just \$995.

You'll save 50% off the regular price... and pay a mere \$2.72 per day for full access to every trade, including my overnight profit trades which are averaging a \$250 profit per winning trade.

And if you're not interested in committing to a full year...

I've arranged for that same 50% savings for our *quarterly offer*.

Instead of paying the typical quarterly rate of \$299... you can receive all of my trades and research for a full three months for just \$149.

That's just \$1.65 per day! And your investment is STILL backed by my iron-clad, 60-day money-back guarantee.

These introductory offers will not last... so it's vitally important that you get started as soon as possible.

Get Started Right Away...

When you claim your RISK-FREE 60-day trial today, here's what you'll get access to immediately:

- ✓ **A Risk-Free 60-Day Trial** — trade alongside me and put all that *Trader's Advantage* has to offer, including the Overnight Profits Strategy, to work for you. That's 60 days to collect fast profits!
- ✓ **Weekly Trades** — 3-to-5 per week... and each one with profit potential to build your wealth. Each trade is delivered straight to your email inbox and contains simple and to-the-point instructions: I'll tell you what to buy, when to buy it, the price to pay, and when to take profits.
- ✓ **Daily Updates** — each day the market is open, I'll send you an update designed to help you understand the market's biggest trends... how the day's news could impact your investments... and previews of the stocks and options we're targeting for future investment.
- ✓ **Instant Text Alerts** — receive immediate text messages on every buy and sell alert by opting-in to our free instant text alert service.

✓ **Weekly Podcasts** — every Friday, in addition to my regular daily email update, I'll provide an audio report that reviews our trade activity for the week and looks ahead toward the next week's potential profit opportunities.

✓ **Unlimited 24/7 Access to My Subscribers-Only Website** — the site is loaded with useful information about our active trade recommendations... past issues... as well as additional research resources and tools designed to help you become a savvier trader.

✓ **7 FREE Bonus Reports** — Including my comprehensive research on **4 Game-Changing Tech Trends**... the **3 Best Sectors to Trade for the Rest of 2016**... **5 Ways to Capture Binge Profits**... and more!

✓ **Total 100% Satisfaction** — if you aren't seeing the kind of profits we've talked about — or if you're unsatisfied for any reason — just let us know within 60 days of ordering and you won't pay a dime.

The total combined value of the research, commentary and tools available to you as part of this offer is far north of \$5,000 per year.

But as I mentioned earlier, you can begin receiving all my stock and option swing trades, plus my "overnight profit" trades — as well as my entire *Trader's Advantage* advisory service — for as little as \$2.72 per day with an annual membership.

That's less than the cost of a regular coffee at Starbuck's — yet this modest investment can literally change your financial future.

There's only one catch — you'll need to act quickly.

The 50% savings on *Trader's Advantage* — along with the 60-day money-back guarantee and immediate access to all of my open positions — is only available for the next 24 hours. After that it could disappear at any time.

Take [advantage of this opportunity right now](#) — and begin putting all my trading strategies to work for you immediately.

It's time for you to begin growing your wealth...

And you can do so at a 50% discount... and completely Risk-Free for 60 days!

Order Now!

[Click the button above](#) to get started right away.

Sincerely,

Jon Markman
Editor, *Trader's Advantage*

P.S. You Have Just 24 Hours to Accept This Invitation: I have no doubt that you will find that my *Trader's Advantage* service will help you collect fast-moving profits time and time again.

And my [special 50% off, introductory offer](#) guarantees your satisfaction in the next 60 days or you'll receive a full refund of every penny you paid.

But I can only ensure that this offer will be open for the next 24 hours.

So I urge you — take advantage of this opportunity to **try my *Trader's Advantage* service Risk-Free for the next 60 days... and at a 50% savings** off the regular price.

[Click here to get started immediately!](#)
